Topfer Theatre at ZACH Austin, Texas

The new Topfer Theatre has more than doubled capacity for its resident theatre company and vastly expanded its technical capabilities. The Karen Kuykendall stage was designed for maximum flexibility with a fly tower, a trapped floor, 20-foot wings,

an orchestra pit, and the latest technology in lighting, video and sound. The 420-seat theatre defines an iconic image for this renowned theatre campus on Lady Bird Lake while retaining the intimate theatre-going experience for which ZACH is known.
