

Theatre Consultants Collaborative

Ocean City Performing Arts Center Ocean City, Maryland

The second phase of an expansion of the Roland E. Powell Convention Center, this new performing arts center was built within a single volume created by the demolition of a former exhibit hall and a portion of a second-

floor ballroom. The 1,200-seat proscenium theatre, with accompanying back-of-house support facilities, enables new programming opportunities, including concerts, lectures, film and touring Broadway productions.

SERVICES

Programming, theatre planning, auditorium design, and theatre equipment design and specification, i.e. performance lighting, rigging, drapery, and sound, video, communications systems
